

LOS VENADOS TEAM TO PLAY IN PORTERVILLE

PORTERVILLE - The famous Los Venados de Mazatlan baseball team will return to Porterville to meet an all-star team at Municipal field July 15, at 8 p.m. - and the goodwill visitors from Mexico will stay in Porterville for a period of eight days while they play other teams around the valley.

Last summer the "Little Reindeers" met an all-star Connie Mack team in Porterville, with the locals winning a fine 1-0 game from the visitors.

Frank Olmos, who is handling arrangements for team housing and game scheduling, says that an all-star team of former Connie Mack players and boys in the Connie Mack age category will meet the Mazatlan club July 15. The Porterville team will be managed by Joe Carrillo.

Olmos plans to house the boys in private homes in Porterville, and is now listing persons who will take a boy or two for the entire eight days that the team will be in Porterville, or for a portion of

Dog Vaccination Clinics Open Today In Southern Tulare County Areas

VISALIA - Through the cooperative effort of the County Health department and the Tulare County Veterinary Medical association, dog vaccination clinics will be conducted in 18 locations throughout Tulare county from July 6 to July 12.

At these clinics dogs will be vaccinated against rabies only and no licenses will be issued. Fee for the vaccination will be \$2.00.

Rabies vaccination is good for two years and dogs vaccinated last year do not need another injection this year but licenses must be

SHANER IS HIGH SCHOOL PRINCIPAL

PORTERVILLE - New principal at Porterville high school will be Robert T. Shaner, 44, who is at present principal of a junior high school in the Garden Grove Unified system. He will move into the Porterville position August 1.

Shaner, who received his education at Pepperdine and the University of Southern California, was the unanimous choice, it is stated, of a screening committee composed of representatives of the high school board of trustees, the high school administration, and classroom teachers. Twenty-six applicants were considered.

Don Howard, now principal of Porterville high school, will be district superintendent in charge of instruction; C. W. Easterbrook, now district superintendent, will officially retire on October 1 and will be succeeded by Tom Van Groningen, now assistant superintendent for business; Dick Berryhill is principal of the new Monache high school that will open in September.

renewed. Licenses can be obtained from the office of the County clerk in Visalia.

The discovery of rabies in bats in Tulare county during the past year places the county as a rabies area. In rabies areas, State law requires the vaccination and licensing of all dogs over four months of age. This includes all dogs whether they are confined to yards or not.

Dogs brought to clinics must be on a leash or under the full control of the owner. It is requested that young children not be sent

FAMINE, UN BOOK SUBJECTS AT CITY LIBRARY

FAMINE - 1975 is a book about the fast approaching collision between the world's exploding population and its available food supplies. This is not a new problem. Governments with food shortages and those with food surpluses have been grappling with it for years. Into the picture now steps Paul Paddock, a veteran Foreign Service officer in underdeveloped countries, and his brother, William, an experienced agronomist, who has also worked extensively in underdeveloped countries. They predict flatly that famine will grip certain nations beginning in 1975 and that the United States will be unable to save them all. One by one the authors demolish the panaceas of synthetic foods, hydroponics, ocean crops, magical fertilizers, desalinization of sea-water and subsequent irrigation of deserts. None of these can materialize on any sizable scale to keep the famine from striking. Since The United States will not have enough food to save all the starving nations, it will have to choose between them. The Paddocks suggest that we apply the so-called "triage" system to separate the nations that cannot be saved, the walking-wounded who will manage by themselves, and those who should receive

food. The authors speak like doctors delivering a verdict. The role in which they cast the United States makes everything else we are doing, including Vietnam, seem picayune. This is a study which demands attention by legislators and citizens alike.

Another timely book is SOLDIERING FOR PEACE, a controversial book by a controversial man. Chief of Staff of the UN Truce Supervision Commission in Israel in the late 1950's and commander of UN troops in the Congo and in Yemen, General Von Horn describes the Israel operation as "chaotic and corrupt", the Congo operation "amateurish and confused", and the Yemen situation "a farce". Almost religious in his belief in the principles of the UN, The General criticizes his faith from within; he is no disgruntled nationalist. He believes bureaucratic incompetence in the glass house in New York a threat to UN strength and world peace. Moreover he very successfully substantiates his charges. The reader will find this an exciting book on international affairs, whether or not he agrees with the author.

A hundred years ago, California's inhabitants lived mainly on the coast, or near interior waterways.

Below normal temperatures have slowed the watermelon harvest in Imperial valley.

CALIFORNIA SPEAKS

DR. ALLEN J. MOORE, Claremont College theologian — "Morality has to be based on the welfare of individuals and not on abstract moral codes."

NADINE HOUSTON, San Leandro, on patriotism — "If one doesn't stand for something, one falls for everything."

ROBERT S. CURRIER, Student dir. of Current Affairs, UC Irvine — "We learn, sometimes slowly, that social changes must be sought within the framework of responsible law and order."

EDIE ADAMS, TV, movie, night club star — "Sex appeal is like money—it's only important when it's not there."

IVAN TORS, noted animal film producer visiting S.F. — "The killer whale is the brightest of all animals...the human being is No. 4."

ART MADSEN, Castro Valley — "The USSR is becoming more 'capitalist' while the United States is becoming more 'socialist'. Maybe we'd rather switch than fight."

ISIDORE ZIFERSTEIN, M.D., Los Angeles — "One wonders about Johnson's concern lest he 'go down in history as having started World War III' when there is a large probability that there would be neither world nor history after a thermonuclear war."

M. W. MADSEN, Sunnyvale — "Patience and politeness are two fundamentals obviously not taught the 'Now Generation'. Perhaps the military can give them the training their parents neglected."

Nothing's Free

It may be, as the old song went, that the best things in life are free; but 'taint so with federal aid, at least for California.

According to the California Taxpayers' Association, we Golden Staters paid \$1.05 for every dollar handed us in U.S. aid last year. If company is balm for misery, 16 other states also had to pay out more than they got.

Cal-Tax figures show California paid \$1,395 million for federal aid programs in fiscal 1966. The state received \$1,334 million. The \$61 million difference is the amount of our donation (not the federal government's) to other states for their aid programs.

Charity, it seems, doesn't always begin at home.

First harvest of tomatoes in the Merced district is expected about mid-July.

Good yields and quality is reported for alfalfa hay in Imperial valley.

JIM LUSK amazes Hilo Hattie with Porterville version of the Hilo Hop, at least that's what our Hawaiian correspondent, Papa Glenn Edwards tells us. Seems that Jim, as president of the Professional Photographers of California, presented Hilo Hattie with a special award during last week's photographers' convention in Honolulu, honoring her for her years in the entertainment field. Papa Glenn, a professional photographer in Porterville, says that Jim, a professional photographer in Porterville, pulled off the convention in fine style, in fact Jim is still in command of the California association until further notice, since, as reported by Papa Glenn, it was impossible during the convention to get a quorum together to hold an election.

We Only Heard

BY BILL RODGERS

A MOST remarkable document is the "Statement Of Legislative Principles, 1967, The California Church Council." We say "remarkable" because this brochure reads like the platform of a political party in an election year."

COVERED IN this church-inspired political piece are policy statements on: Abortion, agricultural workers, alcoholism, capital punishment, civil liberties, civil rights, correction and penal reform, conversion to a peacetime economy, drug control, family planning, gambling and crime, health and public safety, public education, public welfare, and senior citizens.

IMPORTANT ISSUES, every one of them.

BUT WE could care less about the political approach (under the guise of religion) taken by the editorial writer of this document - the Rev. Dr. John R. Bodo, of the department of practical theology at the San Francisco Seminary in San Anselmo, or what the great theological brains of the church council concoct.

FURTHERMORE, WE resent this effort by the California Church Council to regiment us, through our church, into a political power block that is represented to speak for the church, and therefore for us, on matters of a political nature.

WE STRONGLY disagree

with a number of statements in the church council brochure. We strongly resent the church singularly, or as part of a council, getting into direct politics, as it has been doing with increasing persistence over a period of several years.

WE CHOOSE to make our own political decisions. We choose to make our own decisions as to our relationship with our church. This is basic in the Democracy of America.

CONSEQUENTLY, WE voice opposition to any move to tie religion and politics together.

LET INDIVIDUALS of the church do their job in the field of Christian education and in living the principles and philosophies of Christianity.

LET INDIVIDUALS of America do their job and assume their responsibilities in the field of political action under the rules of Democracy and self government.

BUT NEVER the twain should meet - directly.

ALWAYS THE twain will meet indirectly if the church does its job well in the developing of individual Christians, and we the people do our job well in the area of self government, for then individuals in public office will act on the general basis of Christian ideas and ideals, and, in

the long run, America will continue to be a nation motivated by Christian thinking.

BUT LET the church move into the field of power politics, or let elected legislative bodies move into the field of power religion, and both the church and elected public bodies start down the drain.

CHANGES NOTED IN POSTOFFICE PARCEL MAILING

P O R T E R V I L L E - Mailers are now able to send 25 pound parcels between first class post offices which are 150 miles or more apart, Postmaster John W. Baker states. The present weight limit is 20 pounds, he said.

This is the first of five increases scheduled to take effect annually until 1971, when a 40 pound, 84 inch maximum size will be authorized between all first class post offices. Size limitations are now 72 inches in combined girth and length.

Baker also states that parcels weighing up to 40 pounds can be mailed between first class post offices less than 150 miles apart. Packages addressed to and from 2nd, 3rd, and 4th class post offices, Alaska and Hawaii are not affected by the increase in

"THE TULARE County Chamber of Commerce proudly salutes the Southern California Gas Company on 100 years of successful and efficient service." That's the wording on the citation being presented by Gil Swift, seated left, president of the county chamber, to W. Harvey Krammes, division manager of the gas company. Participating in the presentation ceremony also are, left rear, Wayne Robertson, secretary-manager of the county chamber; and Maynard Fought, vice president of the county chamber. The Southern California Gas Company is observing its Centennial year this year. (Alberts Studio photo)

GRANT APPROVED FOR DINUBA

WASHINGTON, D. C. - Congressman Bob Mathias (R-Visalia) has announced that the U.S. Department of Housing and Urban Development has approved a

size and weight provisions of the Public Law 89-573, which became effective January 15, he said. Parcel post mailings to and from these offices remain at 70 pounds and 100 inches.

\$94,229 grant to assist the City of Dinuba in financing a new Community center. The money was approved under the Neighborhood Facilities Grant program. The grant will cover two-thirds of the total estimated project cost of \$141,344.

Russell Hesse On Cotton Pest Control Board

SACRAMENTO - Director of Agriculture Earl Coke has announced the appointment of the new Cotton Pest Control board, authorized by recent state legislation. The nine-

member board is to assist and advise the director in matters which pertain to the eradication or control of pink bollworm and other cotton pests. Those appointed are all cotton growers from major cotton producing counties. They are:

E. A. Egan of Fresno, and George E. Ross of Firebaugh, Fresno county; W.E. Bisgaard of Holtville, Imperial county; Kenneth Frick of Arvin, Kern county; Jack Stone of Stratford, Kings county; Richard B. Johnson of Chowchilla Madera county; Harold O'Banion of Dos Palos, Merced county; Wallace Shropshire of Blythe, Riverside county; and Russell Hesse of Tulare, Tulare county.

First meeting of the board will be held in the Agriculture building in Sacramento on July 18. At the meeting a chairman will be elected and a progress report will be given by Robert W. Harper, chief, bureau of entomology, California department of agriculture, on the pink bollworm eradication program in Imperial and Riverside counties.

MAX FOSTER IS TRAINING OFFICER

VISALIA - A 12 year veteran in law enforcement has been named by Sheriff-Coroner Bob Wiley to the position of Training officer for the Tulare County Sheriff's department.

Max Foster, 33, has been promoted to position. Since the administration change in the sheriff's office January 1st of this year, Foster has been in charge of the Detective division, with the rank of lieutenant.

Also, consideration will be given by the board to the type of regulations that will be needed to implement State Assemblyman Victor V. Veysey's bill, A.B.1201, which was recently signed by Governor Ronald Reagan.

The Veysey bill authorizes a fee of up to 50 cents per bale of cotton to be paid by cotton growers to the State department of agriculture for pink bollworm eradication in future years, beginning in the fall of 1967.

KIDDER HEADS EXCHANGE CLUB AWARDS RECEIVED

POTERVILLE - Frank Kidder, head of the Title Insurance and Trust company office in Porterville, and president of the Porterville chamber of commerce, has been elected president of the Porterville Exchange club. He succeeds John Trimmell.

Other officers for the 1967-68 year are: Dale Weaver, vice president; Dwayne Cosart, secretary; and Dewey Sommerfeld, treasurer. New members on the board of control are: Roy Seaton, Walker Thomas, and Jack Quirk; holdover members are Herb Bonds, Roy Pederson, Don Bendoski, Hoyt Brodersen, and Trimmell.

At last Thursday's meeting of the club, Trimmell announced that three awards went to the Porterville club at a recent state convention in Fresno:

First in community projects for the annual fireworks show; first in youth projects for the annual Band breakfast sponsored by the club; and first for club bulletins, the Porterville bulletin being edited by Jack Letsinger.

Other activities of the club include presentation of Freedom Shrines to schools in the community; sponsorship of Crime Prevention week; and an annual "search for talent" show.

MATHIAS BILL WOULD BAR IMPORT OF LONG STAPLE COTTON BY EGYPT

WASHINGTON, D. C.—Congressman Bob Mathias, a member of the House Agriculture committee, has introduced legislation to bar the importation of Egyptian extra long staple cotton into the United States. The bill would permit U.S. cotton farmers to supply the market now enjoyed by Egypt.

"There is no use in denying our farmers the right to produce this cotton, and giving this market to those who trample our flag," Mathias declared. "I have never understood the reason for importing extra long staple cotton when our own farmers are capable of supplying our needs. In 1963, we produced 161,000 bales here in the United States. This year we will produce only about 71,000 bales. I think the American people would like to see some of this market returned to our own producers, especially in the light of recent events."

Other sponsors of the bill include Rep. Bob Poage (D-Texas), chairman of the House Agri-

culture Committee, and Rep. George Mahon (D-Texas), chairman of the House Appropriations Committee.

The legislation, to amend section 202 of the Agricultural Act of 1956, would close an Egyptian market in the United States amounting to around \$12 million annually. The U.S. now allows the importation of 83,000 bales of extra long staple cotton each year, while restraining the domestic production of the same cotton through acreage allotments.

The new bill would permit an increase in production by American farmers to fill the market for some 69,000 bales previously supplied by Egypt. This would virtually double U.S. production which now amounts to around 70,000 bales each year.

Although Egypt is not mentioned by name, H.R. 11195 is plainly aimed to stop the importations of Egyptian cotton. The legislation instructs the Secretary of Agriculture to "give domestic pro-

"TRADING POST" MEETING SET FOR MONDAY

PORTERVILLE — Ideas and opinions in the business field will be explored and discussed at a "Trading Post" meeting of the Merchants' committee of the Porterville chamber of commerce, at 1 p.m., next Monday.

Luncheon reservations must be made at the Porterville chamber office, 784-7502, today, July 6, according to John Gibson, chairman of the Merchants' committee.

All businessmen and women are invited to attend.

ducers the opportunity to produce an amount of extra long staple cotton equal to any reduction in supply which may result from this enactment.

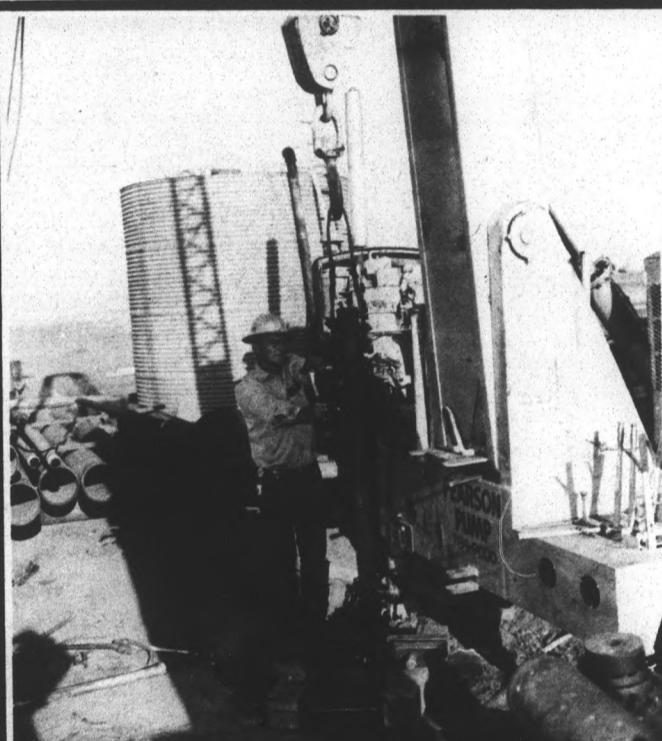

The present allotment for production of extra long staple cotton in the United States is 70,500 acres. This cotton is produced primarily in Western Texas, New Mexico, Arizona and California.

Public hearings on the bill have been set for July 12-13.

JOHN D. HALL, a native of Porterville, and Mrs. Hall, celebrated their 59th wedding anniversary on June 24 in Oakland, where they now make their home. The Halls have three children, Donald, who lives in Berkeley with his wife;

Margaret, whose husband is Dr. Keith Bock, of Berkeley; and Dorothy, whose husband is W. W. Spinney, of Eureka. Mr. and Mrs. Hall have attended a number of Pioneer reunions in Porterville.

**"HOSSCAR" PARTY
SET AUGUST 26
AT GANG SUES**

PORTERVILLE - Twentieth season of the Porterville Barn theater will be kicked off on August 26 when the Barn stages its annual Hosscar awards party at Gang Sue's in Porterville.

Mrs. Beverly Gorne, president of the Barn's board of directors and general chairman for the party, states that awards will be given in 11 categories.

Clifford Clark will serve as master of ceremonies, and will present a variety show as part of the Hosscar party program.

From
**Daybell
Nursery**

By John

Since the ban on July Fourth activities the most hazardous thing you could have done Tuesday was either drive on the highway or plant cactus. We hope your holiday was successful and neither of these activities sent you to the emergency ward. We mention these things because we like to keep our customers up and around and because we have some beautiful cactus and succulents to sell.

The selections in two inch and three inch pots are the best and include some weird enough looking to be students at Cal. Further on down the same table are the last of the tomato plants. You can plant these now and harvest about the time the bottom falls out of the tomato market. We're sorry we don't have any lettuce plants. They're getting more per head of lettuce than per head of sheep. You should remember this next spring when you complain about paying two bits for a whole package of seed.

This apparently being summer time we would like to remind you that lawns should not be mowed too closely and watering should be done, thoroughly and at regular intervals. We realize you won't pay any attention to these suggestions but we do like to mention them. Also inasmuch as you haven't paid attention we have lawn weed killers, lawn moth sprays, lawn fungus sprays, and fertilizer to correct your problems.

Many shade trees, shrubs, flowering plants, roses, and fruit trees can be planted now so call any time before three and free delivery will follow promptly. Open Sundays until four.

that time.

He is particularly interested in getting the visitors into American homes, since a major part of the team program is goodwill and international relations.

Persons who care to "adopt" a visiting ballplayer should contact Olmos, phone 784-5302. From 18 to 20 players will be on the roster of the visitors; they will arrive July 13.

Assisting with arrangements are members of the Mexican-American Civic organization. A banquet for the Mazatlan team is planned, and out of proceeds from the game, it is also planned to send one local ballplayer on a two week goodwill trip to Mazatlan.

Admission to the Porterville game, July 15, is \$1.00 for adults and 50 cents for children through 12 years of age.

State Working To Eliminate Yellow Leaf Roll

SACRAMENTO — Yellow leaf roll, a tree killing virus disease attacking all varieties of peach and nectarine trees, is rated by the Bureau of Plant pathology, California department of agriculture, as the greatest threat to California's multi-million dollar peach and nectarine industry. It is spread by tiny leafhoppers from tree to tree and orchard to orchard.

The department of agriculture and the agriculture commissioners in the affected counties are cooperating in orchard inspections and removal of infected trees.

The Department's 1967 work plan is to inspect all of the peach and nectarine trees in Butte, Colusa, Glenn, Napa, Sacramento, San Joaquin, Sutter, Yolo, Yuba, and the Bear River district of Placer county, half of the acreage

NEW DEPUTY FOR D.A. OFFICE

VISALIA — John Robert Montgomery Jr., a graduate of Delano schools, has been named a deputy district attorney in the Visalia office of District Attorney Robert G. Berman. Montgomery is a 1961 graduate of Stanford University; he received an MA degree at the University of Pennsylvania, and his law degree at UCLA. He was admitted to the California bar this month.

in Fresno and Tulare counties, and to spot-check orchards in the counties of Kings, Madera, Merced, Solano, and the foothill area of Placer county.

Department plant pathologists said that the principal objective of the cooperative yellow leaf roll program is to find and mark all infected trees as soon as possible, and remove them promptly to prevent further spread of the disease.

MIGRANTS SMALL PART OF FARM LABOR

SAN FRANCISCO - Migrants today represent a relatively small segment of the agricultural work force in California, says the Council of California Growers.

Figures released on May 27 by the California Department of Employment show that out of the total of 227,300 hired workers on California farms on that date, only 14,000 were from out of state.

On the same date, it was estimated that approximately 19,400 California residents had traveled from their homes to other parts of the state for farm employment.

At the same time, there

NEW PUBLICATION ON COTTON IRRIGATION

VISALIA - A new University of California Agricultural Extension service publication, "Guide in Cotton Irrigation," is now available at the Tulare county farm and home advisors' office in Visalia. Mail address is P.O. Box 990.

were 193,900 working on farms in the communities where they make their homes.

"These figures certainly belie the shopworn picture of swarms of homeless migrants wandering aimlessly from one farm area to another for jobs," says O.W. Fillerup, Executive Vice President of the Council.

Dog Vaccination

(Continued From Page 1)
to the clinics with their pet dog unless they can maintain full control over the animal.

Clinic locations, dates and times in southern Tulare county are as follows:

Thursday, July 6, Porterville Health center, 4-8 p.m.

Friday, July 7, Springville Firestation and Terra Bella Fire Station, 6-8 p.m.

Monday, July 10, Earlimart Fire station, and Strathmore Fire station, 6-8 p.m.

Tuesday, July 11, Pixley Fire station, and Cotton Center, 6-8 p.m.

Wednesday, July 12, Lindsay Fire station, 6-8 p.m.

Sweet corn harvest is underway in Kern county.

INDEPENDENT FEED STORE

Attention panhandlers.

If you're an expert panhandler, people come to you for a handout. Right into your kitchen, peering and sniffing around, ready for you to hand out goodies and serve up the treats.

We figure our mission is to help.

If your pots and pans have our name on them (for instance) you can be superconfident about what comes out of them. Because we're that way about what goes into them.

For one thing, two metals go into them. Stainless steel (for easy cleaning and good looks that last) and a bonded aluminum bottom (for even heat distribution).

Our electric fry pan delivers the same even cooking as our stove-top cookware. And the heat control is removable, so the pan is completely immersible.

We make a broiler/rotisserie that's special because of what it comes *without*. It has no roof, no door, no walls. It needs none, because it cooks without spatter, smoke or steam. Simple as that. We call it The Open Hearth®.

There's only one electric coffeemaker that starts to percolate in 15 seconds, and makes two cups of good, rich coffee in 2½ minutes flat, and is made entirely of stainless steel.

Our coffeemaker.

We try to put something special into everything we make. Our mixer, toaster, electric can opener/knife sharpener, *everything*. All because of our corny old motto: If we can't make it a little bit better, and a little bit better looking, then we won't make it at all.

You probably think that's just advertising talk, unless you happen to own something with our name on it.
